SIR:

In response to the Office Action dated December 18, 2003,
please amend the above-identified application as follows:

IN THE CLAIMS:

1. (Currently amended) An apparatus for separating soil, the
apparatus comprising:

a frame;

an axle associated with the frame;

a cylinder associated with the frame;

discs attached to the frame on opposite sides of the axle
wherein the discs are ~~aligned on and attached to the axle~~ between
the frame and the soil and further wherein the discs rotate upon
contact with the soil; and

a controller associated with the cylinder wherein the
controller is remote from the frame and controls movement of the
frame such that the discs are moved with the frame and wherein the
